

## NLP Master Practitioner Certification Training

NLP Master Practitioner Certification is also an extension of Breakthrough Leadership. Leadership is a way of operating in the world. We view Master Practitioners as leaders and as such, we deliver the content within the context of leadership.

The course content of Master Practitioner varies from trainer to trainer. There are certain qualifications which must be met for the American Board of NLP and beyond that, each trainer brings their experience and expertise to the training program.

Our content includes a combination of NLP techniques that support healing and change both personally and helping others. The techniques are designed to assist in a corporate environment as well as a coaching or therapeutic environment. As a Master Practitioner you will have the skills, knowledge and wisdom to choose the most appropriate technique depending on the context.
